WORK EXPERIENCE

STONY BROOK MEDICINE (RF SUNY) | *Biostatistician II*   Stony Brook, NY
· Provide statistical guidance on study design, data analysis, and result interpretation for clinical research.   *Nov 2024 – Present*
· Develop and implement statistical models, manage large datasets, and perform advanced analyses using R, SAS, and other statistical software.
· Support faculty, students, and researchers by conducting statistical workshops, teaching fundamental and advanced biostatistical concepts, and mentoring trainees.

COLD SPRING HARBOR LABORATORY | *Biostatistician (Director, Biostatistics Core)*   Cold Spring Harbor, NY
· Conducted weekly office hours, providing over 100 researchers with tailored statistical consultations   *Sep 2020 – Nov 2024*
· Collaborated with Cancer Center and Northwell Health investigators on pre-clinical and clinical studies, utilizing advanced statistical methods including multivariate regression, random forest classifiers, and machine learning algorithms, leading to a measurable improvement in study design robustness and analytical accuracy.
· Authored and reviewed more than 50 statistical analysis plans (SAPs) and methodological sections for research proposals, grant applications (including NIH and NCI), and manuscripts, contributing to a higher success rate in securing competitive research funding.
· Developed data pipelines in R and Python, reducing data preparation time by 30% and enabling the use of advanced statistical models.
· Developed and optimized data pipelines in R and Python, reducing data preparation time by 30% and enabling advanced modeling in over 100 data analysis projects, including the design and validation of experiments.
· Led annual biostatistics workshops, training 100+ researchers in biostatistics, improving analytical capabilities and research output.

WEILL CORNELL MEDICINE | *Research Assistant – Biostatistics & Data Science (Advisor: Xi Kathy Zhou, PhD)*   New York, NY
Application: Collaboration with Andrew J. Dannenberg, MD group   *Aug 2019 – Sep 2020*
· Collaborated extensively with investigators researching cancer, obesity, and metabolic diseases
· Provided statistical consulting support to clinical (lab) and genomic data using R
· Performed sample size and power calculations, designed and implemented database for clinical data collection
· Interpreted statistical analysis reports for investigators and wrote statistical method sections for scientific publication

Methodology: Application of Bayesian model averaging to better identify differentially expressed genes in high-dimensional setting
· Developed a new statistical method using Bayesian model averaging to identify DE genes associated with one or more patient characteristics (or phenotypes), as well as their interactions
· Built and improved R package 'BMAseq' using Bayesian model averaging to analyze observational gene-expression data
· Applied the Bayesian model averaging method to multiple types of datasets, from metabolomics data to NGS data, to check its performance

TECHNICAL SKILLS

· **Programming:** R, Python, SAS	· **Visualization:** Tableau, Power BI, Looker, Prism Graphpad
· **Database:** MySQL, PostgreSQL, SQL Server	· **Deployment:** Shiny App
· **Cloud/Distributed computing:** Amazon Web Services	· **Version control:** Github

EDUCATION

CORNELL UNIVERSITY, WEILL CORNELL MEDICINE | *Master of Science, Biostatistics and Data Science*   New York, NY
· Academic Excellence (Over 4.0 cumulative GPA) Award   *Dec 2019*
· Thesis: Application of a Bayesian Model Averaging Method to Observational Metabolomics Data Analysis

DUKE UNIVERSITY | *Master of Science, Business Analytics*   Durham, NC
· Capstone project: Duke University Hospital (Duke Health)   *May 2018*

SUNGKYUNKWAN UNIVERSITY | *Bachelor of Business Administration with an emphasis on Quantitative Methods*   Seoul, Korea
· Dean's list with distinction   *Jul 2017*
· Study-abroad: School of Arts and Sciences at the University of Pennsylvania (2014) – Travel funding, *Mar 2015*
· Military Service: Republic of Korea Marine Corps (Rank: Sergeant, 2011 – 2013)

Accepted

TEACHING EXPERIENCE

HBH550: Statistics in Life Sciences | *Teaching Assistant for Prof. Jie Yang, Stony Brook Medicine* — *Jan 2025*
Biostatistics Course 2024 | *Instructor, Cold Spring Harbor Laboratory* — *Aug 2024*
Biostatistics Course 2023 | *Instructor, Cold Spring Harbor Laboratory* — *Jul 2023*
Big Data in Medicine: Biomedical Imaging | *Teaching Associate for Prof. Elizabeth Sweeney, Weill Cornell Medicine* — *Spring 2020*
Big Data in Medicine: Genetics & Genomics | *Teaching Associate for Prof. Davide Risso, Weill Cornell Medicine* — *Spring 2020*
Categorical and Censored Data Analysis | *Teaching Associate for Prof. Oleksandr Savenkov, Weill Cornell Medicine* — *Fall 2019*
- Led lab sessions for 32 Master's candidate students to teach biostatistical methods with R
- Reviewed and graded weekly homework and provide guidance on lab assignments
- Held regular office hours regarding questions on course materials, assignments, and academic concerns

PRESENTATION & PRESS INTERVIEW
- Virtual Core Knowledge: Biostatistics Workshop, *Cold Spring Harbor Laboratory* — *Jan 2021*
- Interview Article: Analysis of 3,600 COVID-19 sequences on Nextstrain, *Donga Science* — *Apr 28th, 2020*
- The Single-cell Pathology Landscape of Breast Cancer, *Weill Cornell Medicine* — *Mar 2020*
- Genomic Signatures Predict the Immunogenicity of BRCA-Deficient Breast Cancer, *Weill Cornell Medicine* — *Dec 2019*
- Profound Perturbation of the Metabolome in Obesity Is Associated with Health Risk, *Weill Cornell Medicine* — *Aug 2019*

SERVICES
Korean Data Science / Statistics Community Leader — *Nov 2021 – Present*
- Lead a community of over 500+ Korean data science and statistics students and professionals in the US, organizing meetups, guest speaker events, knowledge-sharing sessions, and career opportunities.

Nextstrain | *Voluntary Technical Translator* — *May 2020*
- Translated technical document and weekly genomic analysis of COVID-19 situation reports into Korean
